P.O. Box 626-90200, Kenya

CAREER OBJECTIVE

Detail-oriented and motivated Computer Science graduate with experience in IT support, software development, troubleshooting, and administrative operations. Skilled in application testing, technical support, and problem-solving with a passion for improving system functionality and user experience.

PROFESSIONAL SUMMARY

- Experience in IT support and technical troubleshooting
 - Knowledge of software testing and debugging processes
 - Skilled in React Native, JavaScript, TypeScript, and Python
 - Experience in application development and API integration
 - Strong analytical, organizational, and communication skills
 - Ability to work independently and collaboratively within teams
 - Quick learner with adaptability to new technologies and systems
-

TECHNICAL SKILLS

- Software Testing & Debugging
 - Technical Support & Troubleshooting
 - React Native
 - JavaScript & TypeScript
 - Python Programming
 - API Integration
 - UI/UX Design
 - Microsoft Excel & Word
 - Documentation & Reporting
 - Computer System Configuration & Maintenance
-

EDUCATION

Bachelor of Science in Computer Science

Maasai Mara University
2019 – 2023
Second Class Honours, Lower Division

Kenya Certificate of Secondary Education

Maliku Girls' High School
2015 – 2018

WORK EXPERIENCE

Administrative Assistant

[Vata Creations Ltd](#)

September 2023 – Present

- Coordinating daily administrative and operational activities
- Maintaining accurate records, reports, and documentation
- Supporting staff with technical assistance and basic IT troubleshooting
- Assisting in data verification and ensuring report accuracy
- Handling invoicing, delivery notes, and transport documentation using Excel
- Supporting process compliance and operational efficiency
- Monitoring and resolving operational and administrative issues
- Collaborating with departments to improve workflow efficiency

IT Support

[Blowplast Limited](#)

June 2023 – August 2023

- Provided technical support for hardware, software, and system-related issues
- Installed and configured computer systems and peripherals
- Assisted users in troubleshooting and resolving technical problems
- Conducted routine maintenance and system updates
- Maintained records of technical issues and solutions
- Assisted in implementing security and data protection measures

Junior Developer

- Assisted in developing and maintaining software applications
 - Participated in UI/UX design for user-friendly applications
 - Conducted debugging and testing to improve functionality
 - Supported troubleshooting and issue resolution during development
 - Collaborated with team members on system improvements
-

PROJECTS

Recipe Finder App

- Developed a mobile Recipe Finder application using React Native, JavaScript, and TypeScript
- Integrated APIs to fetch and display recipe data dynamically
- Implemented search and filtering functionality for enhanced user experience
- Designed responsive and user-friendly interfaces

- Conducted testing and debugging to improve application performance and reliability
- Utilized Expo CLI during development and testing

Motorist Lane Detection App

- Developed using Python, OpenCV, Kivy, and NumPy
- Focused on real-time lane detection and image processing functionality

Weather Application

- Built using React Native and Expo CLI
- Displays real-time weather updates and location-based forecasts

Personal Portfolio Website

- Designed and developed a responsive portfolio website to showcase projects and technical skills

PERSONAL ATTRIBUTES

- Strong analytical and problem-solving skills
- Excellent communication and teamwork abilities
- Detail-oriented with strong organizational skills
- Ability to work under minimal supervision
- Adaptable and quick to learn new technologies
- Highly dependable and proactive
