PROFESSIONAL PROFILE

Computer Science graduate and software developer with hands-on experience building web and mobile applications while working across IT support, business operations, and internal systems. Skilled in TypeScript, JavaScript, Python, React Native, React, PostgreSQL, MongoDB, REST APIs, Git, and authentication. Built practical applications including an HR Management System with role-based access and a PostgreSQL backend. Combines software development with Six Sigma process-improvement thinking to understand business problems, design practical solutions, and continuously improve systems.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, Python, HTML5, CSS3, Node.js
Frontend / Mobile	React, React Native, Expo, Responsive Web Design, UI/UX
Backend / Data	PostgreSQL, MongoDB, REST APIs
Authentication	Better Auth, Role-Based Access Control, Data Protection
Tools / Libraries	Git, GitHub, OpenCV, NumPy, Kivy, Excel
Engineering	Database Design, API Integration, Debugging, System Documentation

SELECTED PROJECTS

HR Management System | TypeScript | React | PostgreSQL | Better Auth | Full-Stack

- Built a full-stack HR management application based on practical employee, attendance, leave, payroll, and reporting workflows.
- Designed a PostgreSQL database structure and implemented authentication with role-based access control.
- Developed a responsive dashboard interface and translated real workplace HR processes into practical software features.

Recipe Finder | React Native | TypeScript | Expo | REST API | Mobile

- Developed a mobile recipe discovery application with API integration, search, category browsing, and a user-focused interface.

Motorist Lane Detection | Python | OpenCV | NumPy | Kivy | Computer Vision

- Developed a lane detection application using image processing and computer vision techniques.

Weather Application | JavaScript | React Native | Expo | REST API | Mobile

- Created a weather application integrating an external API to retrieve and display live weather information.

Personal Portfolio | HTML | CSS | JavaScript | Render | Web

- Designed, developed, and deployed a responsive portfolio website to showcase technical skills and projects.

PROFESSIONAL EXPERIENCE

IT Systems & Internal Tools Support | Vata Creations Ltd | September 2023 – Present

- Support day-to-day office systems, digital workflows, and technology operations.
- Analyze HR and operational workflows and contribute business-process knowledge to internal system development and improvement.
- Design and maintain structured Excel trackers and digital records supporting operations, invoicing, logistics, and documentation.
- Provide technical and user support alongside HR and administrative responsibilities, translating operational issues into practical solutions.

IT Support | Blowplast | June 2023 – August 2023

- Provided first-line technical support for hardware, software, computers, peripherals, and user issues.
- Diagnosed technical problems, installed and configured systems and software, and supported routine IT maintenance.
- Assisted with IT security, data protection practices, user support, and IT procedures.

Software Engineer — Independent Projects | Independent | 2022 – Present

- Design and develop web and mobile applications using TypeScript, JavaScript, Python, React Native, PostgreSQL, MongoDB, and REST APIs.
- Build responsive interfaces, database structures, authentication, and practical applications through continuous hands-on learning.
- Use Git and GitHub for version control and iterative project development.

EDUCATION

Bachelor of Science in Computer Science | **Maasai Mara University, Narok, Kenya** | 2019 – 2023

PROFESSIONAL DEVELOPMENT

Six Sigma Yellow Belt • Six Sigma Green Belt • Six Sigma Black Belt • Master Black Belt – Ongoing

ADDITIONAL STRENGTHS

Problem-solving • Continuous improvement • Team collaboration • Communication • Adaptability • Fast learning
